

Vancouver Island Men's Trauma Counselling Society

Reducing Criminal Behaviour in Youth Referral Form

Program:

Criminal behaviour has been linked to the experience of abuse and trauma in childhood. Our clinic is looking at this connection and how trauma therapy/counselling may help to reduce further crime and involvement in the criminal justice system among young men aged 16-25. This program involves an intake and assessment session, 15 sessions of trauma therapy/counselling, as well as a post-program assessment session. We are offering these 15 weeks of therapy for free with full participation.

*Please scan and email completed form to jeremy@menstrauma.com or fax to (250) 381-3679

Name: _____

Date of Birth (yyyy/mm/dd): _____

Gender: _____

Address: _____
